Dear Sir/Madam,

What am looking to achieve

I hope to undertake a placement where I can excel as a diligent and skilled IT Professional, striving to learn in each phase of my career thereby promoting the growth of the organization and myself. As a good communicator with technical experience and a strong passion for Web Development technology, I believe that I can contribute positively to the organization.

I am looking forward to relocate immediately.

Have 11+ years of work experience in the web development. Currently working at Verizon as a consultant. Have worked in Verizon, Amazon and Groupon. Have worked in the Agile methodologies for the software development. I am quite strong in the front-end technologies like HTML5, CSS3, JavaScript, jQuery. Have experience in the OOJS, Responsive web designs, Bootstrap and AngularJS.

I am a motivated, adaptable and responsible professional seeking a position in the Software Field where I can exhibit my team working skills, problem solving, commitment and effective communication.

I have completed master's in computer science from Staffordshire University, United Kingdom and Bachelors in Computer Science from Amrita University, India. During my master's course I have been exposed to the finer aspects of dot net technology, Java and given the opportunity, would like to apply my skills with the highest levels of dedication and sincerity.

I do have extensive experience in learning the Software Engineering concepts and the programming.

Relevant Portfolios

I am mentioning the entire portfolio's done till now in various companies. Some of the links have been deprecated as the migrations to the newer versions happened after I came out of the companies.

Home Health Network: <https://www.homehealthnetwork.org/>

Grouponworks for IE and Denmark: -

www.grouponworks.ie, www.grouponworks.dk

UK, IE, Denmark Telephone number cleansing

About 2 million Telephone Numbers in each UK, Ireland and Denmark with invalid characters and other symbols being entered by the clients while signing up the business inside the Salesforce. Planned to cleanse the numbers using the MySQL database using the batch updates in the stored procedures. Automatically aligns the columns and cleanse the number with appropriate desired format. Enhancing the

project to a tool has been in the discussion.

Fluid and Responsive Email Templates for all countries and Gift Cards for Amazon.in - www.amazon.in
