PROJECTS

WAC - June 2019 - Present

Develop new application.

- The Dream Work Management App For Hourly Paid Individuals.
- WAC offers much needed support to help zero hour, hourly paid & gig economy workers track their work hours, money & lots more!

- Millions of hourly paid workers struggle to keep track of their working hours, which can sometimes be irregular, unsociable and on the lower pay. WAC is a solution to this problem! Not only does it help individuals keep an accurate record of their work hours, it gives a pay and payslip estimate, a GPS tracking record to prove your location at the time of the shift, a budgeting feature to help track what outgoings you have between each payday and much more..

CitizenChat - 6 Months

Develop new application.

- New chat interface lets you communicate with friends in the best possible and simplest of ways. The brand new in app translator has over 100 languages to choose from for translation. Share images, video and voice notes along with documents and also make cool acronyms with your friends' names.
- A video is a way for people to get an idea of your personality. It makes the viewer to become familiar with you and can instantly create a huge impact. All this can be done in the app itself, just by using your mobile.
- With all jobs, big and small to choose from, applying and waiting for responses is now taken care of. Recruiters can directly connect with you, thereby speeding up the whole process and eliminating all mediators. Recruiters can post different categories of jobs and get notified once a candidate applies. It is free for all.
- User profile is a display of capabilities and achievements. You can update about your work experience and also post images in your portfolio. The whole experience of updating a resume is simplified to an extent that you would love to showcase all your talents.
