WORK EXPERIENCE

Software Developer

Epicor Software Corporation

12/2016 – Present

ERP Distribution Product

Projects/Responsibilities

- Actively worked on Epicor Commerce Connect (ECC) for B2B Distribution.
- Initiated, planned and executed a web application Time Tracker to manage and track technical hours worked. Also used to track time utilization, productivity, attendance and billable hours.
- Implemented POC for Warehouse Management System(WMS) for Pickers and Receivables.
- Expertise in User authentication by implementing the b-crypt for encrypting the password and JWT for generating tokens and authorizing the HTTP requests.
- Used AJAX and JSON to process asynchronous http requests between client and web application.

PERSONAL PROJECTS

ENTERPRISE SERVICE PLATFORM (ESP)

- It is ticket management tool that is used to keep track of the ticket created by the an employee and these tickets can be mapped to various departments and can be assigned to respected team to resolve the ticket raised.
- Technologies and tools : React JS, Redux, Node JS & Express JS

CONTACT APP

- Created a RESTful API in NodeJS using MongoDB database for a Phonebook where a user manages his/her contacts

PHONE-BOOK APPLICATION

- Created a RESTful API in NodeJS using MongoDB database for a Phonebook where a user manages his/her contacts
- Technologies and tools : React JS, Node JS & Express JS, MongoDB, Postman

EDUCATION

RNS Institute of Technology

Bachelor of Engineering in Computer Science

09/2012 – 05/2016

Bengaluru, Karnataka

SKILLS

JavaScript

React JS

Redux

ES6

Node JS

Express JS

Mongo DB

HTML

Bootstrap

JWT Authentication

CSS Flex

Git

MVC

ACHIEVEMENTS

- 1) Introduced and trained team members in JWT authentication and we successfully implemented it in a POC.
- 2) Received "Thank You" Card from the Director of Epicor India for playing a major role in ECC GA.
- 3) Appreciated with the Certificate for a project in a Hackathon organized by Epicor Global team.

EXPERTISE

- 1) Strong knowledge in MERN Stack with vast experience in building Web Applications.
- 2) Built single page web application using React JS and Redux, HTML5, and Bootstrap that communicate with backend via RESTful API. Extensively used HTML5 features like local storage and used JavaScript ES6 features.
- 3) Expertise in User authentication by implementing the b-crypt for encrypting the password and JWT for generating tokens and authorizing the http requests.
- 4) Built backend Node server using Node JS with Express JS to populate the data on webpage through database. Expertise in using Mongoose to communicate with MogoDB. The complete MERN Stack to provide RESTful API.
- 5) Expertise in implementing MVC architecture at server side and Redux architecture at front end.
