

# Palak Bansal

Frontend Engineer

palakbansal3233@gmail.com

9718193113

Mumbai

To obtain the position of Web Developer where extensive experience and passion for building interactive websites, adept knowledge of Object-Oriented JavaScript, modern JS libraries, CSS frameworks, and semantic HTML will be put to maximum use.

## WORK EXPERIENCE

### Software Engineer

#### Drip Capital

04/2019 – Present

Mumbai

A Trade Finance company providing collateral-free post-shipment finance to Indian exporters with instant approvals and minimal documentation.

##### Achievements/Tasks

- Invoice Reference Guide: A feature that guides exporters with the company's compliance requirements during their onboarding. This helped in eliminating the need for customer hand-holding in 1st invoice addition for a new buyer.
- Multilingual Website: Launched International Variants of the website (Global, Mexico, UAE, India) through Nuxt i18n Routing, Cookie Handling, Geo Detection, along with Robots Enabling. This helped the clients in Mexico due to improved website readability. [↗](#)
- Content Management System: Launched Newsletter for the website along with contributing to the in house blog using Contentful's Content Delivery API. Incorporated Social Sharing Buttons. A lot of the articles got featured due to improved page optimisation. [↗](#)

### Associate Software Engineer

#### UnitedHealth Group

07/2018 – 03/2019

Gurugram

UHG offers healthcare products and insurance services to people making itself the largest healthcare company in the world by revenue.

##### Achievements/Tasks

- OpenShift Hub Portal: Built a project management portal in React from OpenShift Console (RedHat) to Swagger using JWT authorisation and passport functionality.
- CI/CD through Github Enterprise (Versioning Control) Made use of libraries like Foundation, Fontawesome and Datatables.
