INDUSTRY BASED PROJECT EXPERIENCE

- Worked as an Intern at **ICU Medical Pvt Ltd, Chennai** for the period of six months May 2018 to November 2018. Worked on the **Connectivity Engine for Plum Infusion System**, which is a component of an **Infusion system**. CE's major responsibility is to provide networking features that enable access to enterprise services such as DHCP services and Mednet services via a web browser. A Detailed Use cases(DUC) Framework and Web config, a browser-based **GUI** is designed and implemented on automation of test cases to

enhance the quality of production code and support for traceability between various test cases and import the corresponding software modules using **MagicDraw**.

- Worked at **RedBlackTree Pvt Ltd, Chennai** from Dec 2019 to Aug 2020. Worked on the **Viking cruise consultant**, which is developed using Angular and .Net Core. This system is the creation of an online diary to manage cruise consultant bookings. It allows the cruise consultant and guest services to manage the diary to book appointments. The system displays the cruise itinerary. The system will notify guests' appointments via Viking Voyager App in their calendar.
- Worked on **Greenhorn Sports**, which is developed using Angular and NodeJS. This application is a social funding platform that put resources and tools in the hands of Athletes to help them achieve their goals. This application will target youth athletes and their families allowing them to permissibly solicit support from friends and family for reasonable, necessary and approved athletic expenses.

ACADEMIC PROJECT

- **FCBF**, Implementation of research paper, "**Feature Selection for High-Dimensional Data: A Fast Correlation-Based Filter Solution**" published in the year 2003. This is developed using **R** a fast filter method which can identify relevant and redundancy among the features. It selects feature correlated by a given threshold with the class variable by Symmetric Uncertainty.
- **QuizUp**, a DOS based quiz game developed in **C#.NET**. This application creates a interactive quizzes from various domains with multiple choice questions. The player is rewarded with the price amount for every correct answers. The price amount is depreciated for every wrong answers.
- **Job Scheduler**, an **application** developed using **HTML, CSS, JavaScript** and connected to **MySQL database** using **PHP**, manages all day-to-day jobs of an organization. It provides information according to the requirements and the roles are assigned to the employees based on their skills.

ACADEMIC ACHIEVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

- Secured **second** position in the School Level of **examination** in the year **2013**.
- Secured **eight** position in the State Level English Proficiency Test in the year **2013**.
- Active member of the **English Literary Society** and **Fine Arts Club** of PSG College of Technology.
- A part of **Women Development Cell**, PSG College of Technology and involved in **social services programs** like Development of women's education in the society etc.
