Summary

Hi!, I'm Enrique and since the 13 years old i'm programmer. I love solve challenges and problems, because that fascinates me and so i have fun. Most of my time i'm studying and developing new things, because I am afraid stop of learning.

Experience

Developer

Reybet24

2020 - Present (8 months +)

External Developer

Freelance

2019 - 2020 (2 years)

External developer who performs Web Scraping jobs to legal sector websites. Sometimes extra skills like Deep Learning are needed, to create an Anti-Captcha system and get all information using architecture like CRAFT (Character Region Awareness for Text Detection) for text recognition (optical character recognition).

External Developer

Freelance

2019 - 2020 (2 years)

Platform that helps people with few resources with their tasks. Here I have carried out several interesting projects such as: Analysis of proteins with the biological library of Python biopandas, Analysis of EBSD images using OpenCL and OpenCV, etc.

Education

Universidad Tecnológica de Bolívar

System and Computer Engineer

2020 - Present

Skills

Python (Programming Language) • Analytical Skills • OpenCV • Web Development • Machine Learning • Optical Character Recognition (OCR) • Deep Learning • Data Science • Artificial Intelligence (AI) • OpenCL
