Project Detail:

Project 1: “COLLEGE MANAGEMENT SYSTEM”

- Duration : 3 Months
- Team size : 3
- Skills used : HTML, CSS, MYSQL.

Description:

In this Project, abstract of the project for College Management System is given along with full explanation of the College Management System. There are many departments of administration for the maintenance of college information and student databases in any institution. All the departments provide various records regarding students. Most of these track records need to maintain information about the students. This information could be the general details like student name, course, performance, attendance etc. or specific information related to departments like collection of data. All the modules in college administration are interdependent. They are maintained manually.
