| 3. | SSC | Sri Geethanjali high schooll, vissannapeta | Board of Secondary Education AP | 2012 | 9.2 |

TECHNICAL SKILLS:

- **Backend** : C Programming,core java with DSA,spring and hibernate.
- **Frontend** : HTML,CSS,JavaScript,Angular.
- **Data base** : MySql.

PROJECT:

Title : Health Record System using java,sql.

Description :

When ever ,the patient goes to hospital ,the hospital will see the previous health record and append the present issue base on unique id. This is very useful to doctors and easy to track the everyone health record. In my project , first the hospitals has to request the officials to register,then the officers will check and approve ,then only the hospital add the patient details into the data base.

INDUSTRIAL EXPOSURE:

1. Internship:

Done internship in the field of SIGNAL AND TELECOMMUNICATION DEPARTMENT, SOUTH CENTRAL RAILWAY, Vijayawada for a duration of one month. This training has fetched many important skills like team work, public speaking, troubleshooting and exposure. I have learned the communication systems and the digital logic controlling in my internship.
