## PROJECTS

### Social Sync — (Technologies: PHP Laravel, MySQL, Firebase, Social APIs, AngularJS, Bootstrap, AJAX, jQuery, HTML5)

A webapp that can be used to send posts to all the social media accounts at preset time intervals. It can hold online coding interviews. Posts are sent to the accounts using cron-jobs. Payment gateway and online chatting between admin and client is also implemented.

### Dev Connector — (Technologies: ReactJS with Redux, MongoDB cloud Atlas, NodeJS, HTML, )

A webapp that allows the developers to connect with each other. They can add education, experience, projects, GitHub profile, posts, comments.

### iDigital — (Technologies: ReactJS, NodeJS, MySQL, JavaScript, Bootstrap)

A web app that can create dynamic images from the template for the marketing and festival wishes. Companies can be added. Images can be created from the template and then can be edited from the image editor interface. Companies can add their own images, too.

### DBS | DA Booking System — (Technologies: PHP Laravel, MySQL, JavaScript, jQuery, AJAX, Bootstrap)

A Web app that will be used for booking Classrooms, Lecture Theatres, Labs, OAT in our college. Faculty Member, Student and Committee /Clubs can book these resources as per their requirements. We are giving facilities like live booking and cancellation of booked resources.

### Sambhav — (Technologies: Spring Boot, MySQL, REST APIs, HTML5)

A Web app that provides a platform for buying and selling the used / new products inside the college campus. Different kinds of categories and products are available here.

### Facebook — (Technologies: ASP.NET, C#, jQuery, Bootstrap)

A webapp like Facebook that can connect people. Users can login, create posts, send friend requests, approve / reject requests, add wall/profile photos, add pages etc.

### BCCI Desktop app — (Technologies: VB.NET, SQL Server)

A desktop app that is for BCCI (Board of Control for Cricket in India) which can be used for live-match statistics, add players, add stadium, add umpires / officials etc.
