### CAREER OBJECTIVE:

Seeking an opportunity to utilize my skills and abilities that offers professional growth as Front End Developer , while being resourceful, innovative and keep myself dynamic, competitive with the changing scenario of the world

### EDUCATIONS:

- **M.Sc. Information Technology -2018** with 78.4 % Score from **Sri Krishna Arts and Science College, Coimbatore.**
- **B.Sc. Information Technology-2016** with 74.5 % Score from **Avinashilingam College, Coimbatore.**

### PROFESSIONAL EXPERIENCE:

**Organization:** Focus Edumatics (Feb 2019 – March 2020) As Quality Analyst

**Few words about my Team:** We are the course coordinators who assume the responsibilities of making ready or overseeing the preparation of the course materials, designing the study schedule of the course, observing tutors' performance, providing back-up support to tutors. Also assist with resolution where they face issues with students or with the course materials and lots of alternative tasks like even directly interacting with students once the tutor isn't on the market. Most of the tasks relate to the management of tutors and course material. This can be why course coordinators have a significant role to play in guaranteeing the standard of the tutoring services that are delivered by tutors.

### Roles & Responsibilities:

- Testing content entails whether the content is as per the inputs sent by the schools/curriculum and storyboard.
- Analyse whether student is properly engaged in the session.
- Check for content or pacing error that might lead to result in an undesired session experience for the student.
- Make quality session experience for the student in rendering appropriate solutions.
- To assign right tutor for student supported on their subject and preference.

- Provide action plans to enhance tutor's content knowledge and instructional methodologies.
- Creating innovative scripts to avoid robotic session experience for the student.
- Tracking particular tutor's record for enhancing rapport.
- Analyse and keep track of each student based on their ILP's.
- Collaborate with students, parents, teachers, faculty directors, or counsellors to work out student wants, develop tutoring plans, or assess student progress.
- Assess students' progress throughout tutoring sessions.

**Current Experience:** Working as Front End Developer in Goozi Errand Services website, creating an user friendly and responsive website using HTML, Css, Javascript, JQuery, Bootstrap and Media query.

**SKILLS:**

- HTML and CSS
- Javascript
- Bootstrap
- JQuery
