

PARTHA SARATHI BARIK

iOS Application Developer

SUMMARY

iOS Application Developer with more than 4 years of experience developing and improving various user-friendly applications. Responsible for delivering readable and easily maintainable source code within deadlines. Constantly striving to learn new technologies to match this rapidly growing industry. Worked on UIKit, Core Data, Multithreading, Cocoa Touch, AV Kit, Camera, Location functionality, Charts, ML Core, Siri.

EXPERIENCE

Celgene Corporation

- **Monitoring Application** - Worked on UI development for Celgene Monitoring Application. It is a Survey application with functionalities like survey syncing, uploading survey images etc.
- **Nucleus App** – Worked on UI, Core Data, search and multithreading functionalities for Celgene Nucleus Application. It is used to view and download enterprise files from different databases with parallel auto-download functionalities.

Telstra

- **MyTelstra** – Worked on UI, Local Notifications, Network Health check components. This app helps the Telstra Network users to check their network usage, bill payments, postpaid or prepaid recharge etc.

Rubiks

- **Mobile Merchant** - Developed APIs in Apigee Edge for Mobile Merchant backend Node.js Application. This takes a Username and gets an authentication token from BOX platform using JWT.
- **Local App** – Worked on UI and functionality development for Local App which is a social application meant to be used by Accenture employees.

Capital Group Focus Application

- Worked on UI development for CG Focus app which was designed to manage meeting for Capital Group executives.

HyperVerge

- Worked on a fully custom camera framework. It could take custom document images and upload them to server.
