EXPERIENCE

UDACITY | Mentor and Project reviewer for Front End, React and Intermediate JavaScript Nanodegree

Feb 2019 - Present | Contract

- Mentoring students from all over the world by giving them technical support via one-to-one video-call, Webinar, forum, and other activities on Udacity Student Hub.
- Help them with their technical queries related to programming in Javascript or anything related to web development in general.
- Reviewing students' projects and giving them constructive feedback on the code quality etc.

SCOAR EDTECH PVT LTD | Front-End (React) Developer

July 2020 - Present| Remote (Internship)

- Building a platform where teachers can teach students online just like a live classroom via video call using a whiteboard.
- Built the foundation of the platform, developed students' and teachers' dashboard, whiteboard, landing page etc from scratch using React + Redux.

LISTIEE.COM (VIZACK CREATIONS LLP) | Front-End Developer

Feb 2019 - July 2020 | Remote (Internship)

- Built a social media platform from scratch as a part of the core team. Developed reusable UI components using react and redux, implementing complex features and integrating the APIs to the platform.
- Collaboratively worked with the team on GitHub, managed the members and took care of the codebase i.e testing, merging, fixing merge conflicts and deployment, etc.

FIREBLAZE TECHNOLOGIES | Web Developer

Sept 2018 - Feb 2019 (6 Months) | Remote internship

 Certificate: (Click here)

- Designed and Developed company's website and a Student Learning Portal for their in-house education platform fireblazeaischool.in enabling hundreds of students to learn new technologies online and achieve success.
