EXPERIENCE

Avanseus Technologies, Bangalore — *Software Engineer*

July 2018 - PRESENT

Worked primarily on JAVA backend. Built a completely new model from scratch which is presently being used by every telecom operator around the globe...

Zysk Technologies, Bangalore — *Intern*

March 2017 - October 2017

Worked as an intern in college days, worked primarily on front end technologies (reactJS). Developed a complete front end from scratch for a new customer.

PROJECTS

CAN — *Cognitive Assistance Network (2 years)*

Application Developer

- Designed and developed a fault prioritisation system.
- Designed and developed the input processing and cleaning module for a new vertical.
- Designed and developed output processing for the same new vertical.
- Integrated the newly developed module to the legacy system for the biggest client of our organisation.
- Optimized legacy system to handle the increasing volume of daily incoming data.

EDUCATION

JSS Academy of Technical Education, Bangalore — *B.E*

June 2014 - June 2018
