➢ Analyzing different modules and designing the screen using ionic scss file as well as dynamic.

➢ Writing angular code for accessing data from hybrid mobile screen.

➢ It includes number of functions, activities and Assets carried out at regular Intervals involving data transfer and requires continuous monitoring on data and user's activities

➢ Added map with multiple marker

Technology Used:
➢ Angular , ionic
➢ Visual Studio
➢ Custom calendar
➢ Camera, gallery
➢ Api integration dynamically

Project #3

Ama Ghara:- (Rural Housing)
Duration: July 2019 – Nov 2019
Team Size: 1
Link: **https://play.google.com/store/apps/details?id=orsac.bharatnet.panchayatDept**

Description   :

In this projects was to get the benefits from state governments of odisha (Rural Housing Department) in diferrent schemes like Bpgy Titli, Bpgy incentive, BPGY.

Role and Responsibility:

➢ Analyzing different modules and designing the screen using android xml file as well as dynamic.

➢ Writing java code for accessing data from android screen.

➢ Capture effected house images by using gallery , camera and upload in online and offline to server.

➢ It also capture GEO tag location while upload in online and offline,

➢ Here used encrypt and decrypt json object format for security purpose. It verify by IIIT.

Technology Used:

- Java, Android SDK
- Sql lite database
- Retrofit .
- Offline Working.
- Kotlin

- Working as a Android Developer at **DIGICHAMPS , Bhubaneshwer from July 2018 to Oct 2018.**

Project #4
Digichamps:- (Educational Project)
Duration: July 2018 – Oct 2018
Team Size: 2
Link: **https://play.google.com/store/apps/details?id=com.sseduventures.digichamps**

Description :

The main aim of this project is to design a mobile application for offers the easiest and fastest way to provide video and test material for students. It also provide study materials in PDF format and mentor for clear doubts with different packages for students.

Role and Responsibility:

- Analyzing different modules and designing the screen using android xml file as well as dynamic.

- Writing java code for accessing data from android screen.

- Attempt different subject based exam and provide mentor for clear doubt with video and PDF documents.

- Display complete details of transporter, review book, payment option .

Technology Used:
- Android SDK
- Razorpay
- Retrofit .
- Offline Working.
- Kotlin, MVVM architecture

- Working as a Android Developer at Techinflo Solution Pvt. Ltd , Bengaluru from August 2016 to july 2018.
  Project #5
  Trola:- (Transporter Project)
  Duration: March 2018-May 2018
  Team Size: 1
  Link: **https://play.google.com/store/apps/details?id=home.techinflo.com.trolaapplication**

Description   :

The main aim of this project is to design a mobile application for offers the easiest and fastest way to book transport services for any part of India. It contains more than 7000 Transporters, 25000 Vehicles, 1000+ Locations makes in goods transportation category.

Role and Responsibility:

- Analyzing different modules and designing the screen using android xml file as well as dynamic.

- Writing java code for accessing data from android screen.
- Search Transporter by selecting from location, to location, vehicles details .
- Display complete details of transporter, review book, payment option .

   Technology Used:
- Java, Android SDK
- PayuMoney
- Google Map, Place Auto complete.

- Working as a Software Engineer at Envibyte Pvt Ltd , Bengaluru from Feb 2016 to July 2016.

Personal Strength:

- Ability to work hard with punctuality and positive attitude.
- Quick Learner
- Team Player
- Self motivator and Confidence.

Personal details:

Name: Dharitri Mohanty
Date of Birth: 23/0ct/1989
Gender: Female
Languages Known: Odia**,** Hindi, English
Marital Status: Married
