SKILLS

Angular (v2+), AngularJS, JavaScript, Typescript, NodeJS, HTML, Cascading Style Sheets (CSS), PHP, C++, Java(Basic), Android(Basic), OOPS.

EXPERIENCE

Lattice Innovations | Frontend Developer
AUGUST 2017 – JUNE 2019 | DELHI, INDIA

- Worked on a web application that will help to manage the workflow of documents. Document control through ECO (Engineering Change Orders).

- Developed a tool that help doctors to manage penicillin per RHD patient considering some crucial factors.

- Responsible for projects timeline, project scope, contributing design and development enhancements.

Fi Ellements | Frontend Developer
JUNE 2019 – Present | GURUGRAM, INDIA

PROJECTS

PENCILLIN TRACKER

An open access system that enables doctors across India to log the number of active Rheumatic Heart Disease (RHD) patients they have under treatment. The location of the physician will also be retrieved in real-time, so that location-specific data can be provided to all viewers. The system will capture only the number of active patients, to eliminate use & management of patients' protected health information (PHI).

MEDTRACK – DOCUMENT CONTROL SYSTEM

Medtrack is a document control system for medical device companies. It focuses on document change management and associated approval workflow/ notifications, training records, training administration through questionnaire, quality assurance, inventory, production, finance.

FAITH BIOTECH

System served as a proof-of-concept for a system of networked vitals monitors and medicine dispensers. It works according to the following steps:
1. Registers patient, view records.
2. Measure vitals, display on app using graphs/ charts.
3. Request and dispense medicines.

EDUCATION

B. TECH COMPUTER SCIENCE -2017
Delhi University
Percentage: 87.06

CLASS 12th
CBSE, ARMY PUBLIC SCHOOL-LUCKNOW
Percentage: 89

CLASS 10th
CBSE, ARMY PUBLIC SCHOOL-LUCKNOW
CGPA: 9.8

ACHIEVEMENTS

Lattice Innovations | Jan 2018
Best performer of the quarter.

Lattice Innovations | Oct 2017
Awarded Spot Award for learning agility and quality of work delivered.

Tech-marathon |Technical Fest | Feb 2016 | DU
Ranked 2nd in Hackathon coding event.

HOBBIES

Watching Movies.

Socializing with friends and family

Listening Music

MILLIPORE SIGMA

Digital Platform for AMS devices for Product Run. System consists of three types of users (Admin, Manager, Operator). User can create a schedule for specific AMS module on the digital platform. User can assign operator and floor manager for the schedule. Admin can add a rule for a day or days. Adding a rule for a day excludes that day from adding any schedules for AMS runs. User can create location and floor for AMS.

TECH MARATHON / TECHNICAL FEST / DU
FEB 2016
Organized event at departmental annual technical fest, Tech-marathon.

KALRAV / CULTURAL FEST / DU

Organized event for cultural fest.
