INTERNSHIP

Full Stack Web Development in Node.Js
May 2017-August 2017(15weeks)

Took up a Web Development course from Coding Blocks, Dwarka. The course helped me understanding of, how the web engine works and focused on web development Full Stack course with Node.Js. Learnt JavaScript for both frontend and backend.

Summer internship Web Development
May 2018-July 2018(7 weeks)

Worked as a summer intern in InfoNet technologies Pvt. Ltd(India). As an intern I learned the basics of AngularJS and was involved in development of web application. Using front-end technologies like AngularJS, Bootstrap and back-end technologies like Node.JS.

PROJECTS

Websites On Events Nearby

Created a website using HTML, CSS, Jquery, JavaScript, NodeJS for events taking place nearby and booking tickets for the same. Crawled BookMyShow website for real database stored in MongoDB local host.

Smart mirror with home automation using Raspberry Pi

Made a smart mirror which displays real-time data like time, news feeds, temperature etc. Answers to question asked using Alexa of AWS using its API. Also added home automation controlled via voice over PubNub and IFTTT.

Website On Fifa World Cup 2018

Created a website as a project for summer internship. Used AngularJS and NodeJs for making websites both frontend and backend. Used mongoDB database (Json format) which could be altered by admin only.

HIGHLIGHTS

• Web Development
• 3D Modeling
• Rendering 3D models
• Strong Communication, Oral and Written
• Good Analytical and Problem Solving Skills
• Willingness to Learn

HOBBIES
