Java Developer with experience in conversational AI

ASPIRATION: To gain employment with a company or organization that gives me a positive atmosphere to learn new technologies and implement them for the betterment of the business.

ABOUT MYSELF:

Hard working and sincere with a mature and responsible outlook towards any task I undertake. Being a CSE graduate with one year of experience in **Conversational AI** and Analytics I am looking forward to an opportunity which will help me learn and grow in the IT industry. I wish to gain more experience in different areas of this field.

TECHNICAL SKILLS:

- C
- C++
- Python
- Java
- Basics of Oracle Sql
- HTML
- CSS
- Javascript basics

WORK EXPERIENCE / INTERNSHIPS:

senseforth.ai	June 2019 - Till date	• Working as a junior software developer at **Senseforth Technologies, Bangalore** (www.senseforth.ai) • Expertise in **Conversational AI** - created optimized workflows for increased user engagement on **"Eva"** chat-bot for HDFC bank. • Thorough with database administration with MySQL. • Executed software applications through coding process of specifications and documents. • Experienced in all phases of SDLC including analysis, design, coding and testing, expertise in integration using Java architecture. • Developed good interpersonal skills and requirement analysing capabilities since we were directly interacting with clients.
Infosys	January 2019 to May 2019	• Got placement in **Infosys Ltd.** through campus recruitment. • Completed four months Internship at Infosys Mysore.
STL	June - July 2017 (45 days)	• Summer Internship at **Sterlite Technologies, Mumbai** – Worked in Elitecore Software division which is engaged in developing and deploying software products for telecom companies across 40 countries. • Learnt how database systems are implemented on a large scale, how different software products are developed. Got a great exposure to corporate environment.
